PRUNE WEEK **Campbell** INTER-URBAN **Press** MARCH 19-25

VOLUME 26, No. 36 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — FRIDAY, MARCH 4 192

CALIFORNIA NEWS ITEMS IN BRIEF

Paragraphs of Interest to Readers of Golden State

Porterville club women plan a $15,000 clubhouse.

Thirty thousand dollars was recently paid for a ten-acre prune orchard. in San Jose.

Western Pacific shops at Sacramento, employing 400 men, have shut down until March 1st.

The Sutter Basin farming operations for the spring already are under way, with the planting of 2500 acres of sugar beets.

T. H. Lackey, famous locally for his success at gardening, is preparing hot beds for 200,000 sweet potato plants at Rialto.

A contract has been let at Oakland for the construction of more than six miles of concrete highway between Niles and Newark at the cost of $184,745.

Paul Greenbaum, Los Angeles pawnbroker, was found dead with a bullet through his head near his automobile at Etiwanda, San Bernardino county, last week.

Approximately 1000 delegates are expected to attend the thirty-second annual convention of the California State Beekeepers' association to be held at Oakland March 2-5.

Application has been made to the Railroad Commission by the Contra Costa Realty Company for authority to sell its water distributing system to the city of Martinez.

Strawberry plant growers of Castella have formed a cooperative association for marketing their plants, which are of far more importance to them than the berries themselves.

Officials of the weather bureau are planning to discontinue the branch in San Jose, and, as a result, a great deal of opposition has been aroused among the business men and ranchers.

The Goose Lake valley region is to be thoroughly prospected for oil and gas, according to announcement made by the president of a new incorporation just formed for that purpose.

The fair directors of Madera, Merced and Mariposa counties are seriously thinking of holding a Tri-county fair this season in place of three fairs which have heretofore been held by them.

The Northwestern Pacific Railroad has applied to the Railroad Commission for authority to lease a portion of its line in Mendocino county, known as the Albion branch to the Albion Lumber Co.

The planing mill and the shipping department of the Diamond Match Company at Sterling, which have been closed since the 10th of December on account of weather conditions, have resumed operation.

The mines and calcining plants of the Pacific Coast Borax Company in Death Valley have been closed, a move made necessary by the increase in freight rates from the valley to Eastern ports, it is said.

Chas. A. Partridge, a member of the Inyo Board of Supervisors, came near losing his life when caught in a cave-in. He was helping to survey an irrigation ditch and was at the bottom of an eleven-foot cut when the earth caved.

Mrs. Amy Orcelia Edwards, a pioneer of Shasta county, is dead in Manton, at the age of eighty-six. She came to California fifty-six years ago with her husband, the late Dr. J. T. Edwards, and to Shasta county thirty-three years ago.

Annouucement that the regular summer session of the University of California, formerly held at the University Farm School at Davis, is to be held this year at Chaffey High School, June 20 to July 30, was received at Ontario with much interest.

Merchants of Sacramento have subscribed $4000 to repair a road between Courtland and Hood, near Sacramento, because the citizens of the district failed to secure sufficient funds from the County Board of Supervisors and the State Highway Commission.

On request of Dr. F. B. Kellogg, secretary of the State Board of Health, the Martinez Board of Supervisors has instructed District Attorney A. B. Tinning to frame a county ordinance requiring all dogs to be muzzled during threatened epidemics of rabies.

Unofficial reports that the proposed cruise of the Pacific fleet in July to Australian and South Sea island ports had been or would be canceled by the Navy Department were received at San Diego last week. A desire to economize in fuel was said to be back of the change in plans.

Southern Pacific passenger service in Napa valley is to be curtailed to one train a day, owing to the fact that travel is unusually light on the trains of the steam line between Napa and Calistoga.

POLICE JUDGES RECALLED IN S. F.

Vote Removes Oppenheim and Sullivan from Bench

San Francisco—Police Judges John J. Sullivan and Morris Oppenheim were recalled at the special recall election Tuesday, and Sylvian J. Lazarus and Lile T. Jacks were elected in their stead.

The new judges will be sworn in immediately upon the filing of their certificates.

At no time during the count of the vote was the issue in doubt, Lazarus and Jacks leading their opponents from the start by increasing majorities.

Jacks, who was chosen to oppose Oppenheim, led his opponent in the final ballots by 4774 votes.

Lazarus did not score against Sullivan by such a large margin, his lead being 4455 votes.

The recall proceedings arose out of testimony of C. Vincent Riccardi before the grand jury and subsequent investigations by the San Francisco Bar Association and the Civic League of Improvement Clubs.

Investigation by the Bar Association resulted in the launching of disbarment proceedings before the Supreme Court against Judges Sullivan and Oppenheim.

This action was followed by recall petitions circulated by the Civic League.

There were a total of 84,881 ballots cast and the size of the vote was a surprise to all parties in the election.

There were approximately 6000 votes cast out on account of mistakes in marking the ballots.

RICE MARKET IN TURMOIL

Action Begun in Federal Courts by New York Firm

San Francisco—From the paddy fields of the Sacramento valley, through the bankers and the milling industry and up to the brokers and dealers in San Francisco, the California rice market is in a state of turmoil.

Indicative of opposition to a Pacific Coast rice growers' association, which recently set in motion a new selling organization in behalf of the growers in the valley, was a petition filed this week before Federal Judge Frank H. Rudkin by G. Amsinck & Co., Inc., of New York City, importers and exporters.

Naming an imposing list of rice milling companies, prominent banks of San Francisco and the valley, and specifically named the Pacific Rice Growers' Association, the New York firm of brokers alleges that there is a "gigantic scheme and conspiracy to absolutely control the supply and fix the price of California rice," including also a "scheme in which defendants have joined to maliciously destroy the established business of dealers in rice."

Aside from seeking a dissolution of the association, the petition for an injunction seeks to restrain the banks from further advancing loans, and to prevent them from enforcing contracts with member growers.

TAX BILL PASSES SENATE

Administration Wins Fight by Narrow Margin

Sacramento—By the narrow margin of one vote the administration triumphed in the senate for the second time in the bitterest conflict between the state and the allied public utilities and the banks over taxation. Voting 27 to 13, the upper house of the legislature passed the King bill, raising the tax rate of corporations.

The measure now goes to the assembly, where the lines are exceedingly closely drawn and where the administration anticipates a hard battle to put it over.

U. S. MAIL TRUCK HELD UP

Masked Bandits Escape with $100,000

Oakland — Three masked bandits traveling in a high-power automobile last night held up a United States mail truck in Oakland, robbing it of from $40,000 to $100,000 in registered mail.

The mail truck was en route from the Oakland postoffice to the Southern Pacific Sixteenth-street station with a consignment of mail to be taken East on train No. 10, leaving Oakland at 9:30 o'clock, when the bandits' car drove up alongside it in a lonely district, and overpowered the driver.

BIG SEARCHLIGHT ON TAMALPAIS

Richmond—Mt. Tamalpais will soon boast of the largest searchlight in the world. It will be 40,000,000 candle-power and throw light over a radius of forty miles. Objects at sea and the entire San Francisco bay district will be plainly discernible through the medium of the light and it will serve many purposes. Announcement of this new attraction was made at a recent meeting of the Marin County Chamber of Commerce luncheon. The cost of the light will be $16,000, and money for its installation has already been subscribed.

ROWLAND B. MAHANY

Rowland B. Mahany of New York, solicitor of the Department of Labor, has been appointed by President Wilson as American representative on the international commission of immigration and emigration, which is to meet at Geneva, Switzerland. The date of the meeting is to be fixed by the international labor office of the League of Nations.

ALLIES REFUSE GERMAN PROPOSALS

Reparations Offered by Germany Deemed Insufficient

London—When German delegates faced the allies yesterday with the object of coming to a final settlement of the German indemnity a gulf was revealed wider than predictions had forecast. Germany's counter-proposals fell so short of the allied Paris program that the British premier declared that "the German government appears to have a complete misunderstanding of the realities of the position," and adjourned the conference after Dr. Simons, the German foreign secretary, had tried to advocate the document's reasonableness.

Dr. Simons offered what experts estimate would be $12,166,250,000, of which Germany claims $4,866,500,000 has been paid. This is coupled with the conditions that Upper Silesia remains German and that free commercial privileges be restored to Germany.

The allies' terms required the payment of $54,991,450,000 and the lowest Germany was expected to put forward was something over $34,065,500,000, while Germany wants $19,466,600,000 raised by a German foreign loan, in which she professes to believe America would cooperate.

The belief prevails in the allied camps that the negotiations have ended and that the allies are on the eve of action. Their reply is expected to be an ultimatum.

DISORDER IN TUSCANY

Seized Documents Implicate Railway Men

Florence—Eleven persons have been killed, more than 100 wounded and 500 others arrested in connection with the disorders here, which seem to have been the outcome of a revolutionary plot having ramifications throughout Tuscany.

From investigations made of seized documents, the movement had as its backbone the railway men, who have been paralyzing communications to prevent movement of troops.

The city was occupied last night by military forces, the situation being considered grave.

Machine guns, armored cars and field guns were placed at strategic positions.

ORIENTAL BIRTH STATISTICS

High Record in Japanese Births.

Sacramento—A new high record in the number of Japanese birth registrations was reached in California in 1920, according to tabulations announced here by L. E. Ross, director of the bureau of vital statistics of the state board of health. Japanese children born in this state and registered to date for the twelve-month period, Ross reported, numbered 4928, or between 7 and 8 per cent of the total registered birth record of 66,655. State records show 4218 Japanese children were born in California in 1918 and 4458 in 1919.

CAL. FOOD RESEARCH INSTITUTE

New York—The Carnegie Corporation of New York has announced an agreement entered into by the corporation and Stanford University in California by which a food research institute is to be established at the university for the intensive study of the problems of the production, distribution and consumption of food.

FORMER CAMPBELL GIRL MARRIED

A very prettily appointed wedding was solemnized Thursday evening of last week when Miss Ruth Lloyd became the bride of Edward Wentworth Harrington of San Rafael. The ceremony was read at the Centella Methodist church, the bride's father, Rev. W. H. Lloyd, officiating.

Music was furnished by a girls' quartet, made up of friends of the bride, and W. B. Kammerer, who sang, "Beloved, it is Morn." Mrs. Harold Hilton, piano, Josef Halamicek, violin, and Jan Kalas, 'cello, played Reginald De Koven's wedding march.

The bride was escorted to the altar by her brother William. Miss Dorothy Ainsley acted as maid of honor, with Misses Gladys Townsend, Beth Kennedy, Lucille Saunders and Mary Murray as bridesmaids. Charles Lloyd, brother of the bride, acted as groomsman. Ushers were Elwood Baugh, Ernest Lloyd, Roy Castleman and Ray Ekstand. The bride wore a white satin gown with court train and tulle veil, and carried a shower of roses and freesias. Miss Ainsley wore a pretty gown of orchid charmeuse and georgette and maline hat to match and carried a spray of roses.

Mr. and Mrs. Harrington will make their home at Berkeley for a time while Mr. Harrington finishes a post-graduate course at University of California.

The heartiest best wishes of Campbell community is extended the happy couple, Miss Lloyd having lived here for several years.

SCHOOL RIOTS ENDED

Ventura—Twenty-three girls, said to have been ring leaders in a riot this week in the California State School for Girls, have been taken back to the school from the county jail. Mrs. Mary A. Hill, superintendent, announced there had been no further disturbances and the school was in "excellent order."

Six girls who escaped during the outbreak were still missing at last reports.

The Pacific Gas and Electric Company has completed the installation of a new and larger power transmission line between Colgate power house on the Middle Yuba river to the Grass Valley substation. The line has a capacity of 60,000 volts, which is double the former current in that section.

REDS MENACE WEST EUROPE

Armies Massed For Bolshevik Spring Drive.

Coblenz—Despite the commencement of the soviet drive in the Near East through the Caucasus, the bulk of the Bolshevist army remains on the western front. According to the best available military information, 600,000 Red troops are now in a position to menace Western Europe from a point to be selected by the Red chiefs for their spring drive. As the total armed strength of the Russians, exclusive of the labor battalions, is about 800,000, not more than 100,000 troops are driving toward Erzerum to establish communications with Mustapha Kemal Pasha.

At the request of the Contra Costa council of American Legion posts, the board of supervisors has designated the newly constructed highway between Martinez and Dublin as the Contra Costa Memorial boulevard.

John V. Williams, 75, one of the pioneer miners of the famous Cherokee diggings, who made thousands in gold in early days, died last week at the County Infirmary at Oroville. Williams was one of the first miners to work along the creeks in the vicinity of Cherokee, which is recorded as one of California's former bonanza areas.

The concrete shipyard site at San Diego used by the Federal Shipping Board in the construction of two large tankers, the Cuyamaca and San Pasqual, during war-time, has been officially turned over to the navy department for a fleet repair base. Construction of a marine railway and dredging to the approach of the yard will be started at once, it is announced.

M. Gopcevic, fruit grower of Lake county, has brought suit against the California Packing Company for $40,000 damages, alleging a breach of contract. Gopcevic asserts that the packing company failed to take his 1920 prune crop at the price agreed upon and he was a loser thereby.

Residents of San Jose will vote April 12 on several amendments proposed for the city charter. The most important of these is one providing for pensioning of civil service employes of the city. Under the plan, each employe pays a certain amount each month toward a pension fund.

CAMPBELL CENTER FOR BIG FIELD MEET

Contests Planned For Grammar Schools

The grammar school principals of the county, in conjunction with Miss Agnes Howe, have arranged a series of track meets in various parts of the county, and Campbell has been designated as the center for Meridian, Hamilton, San Tomas, Cambrian, Moreland and Campbell.

Mr. Rodriguez has planned the following program for the day, which will be sometime in May:

1. Parade of schools, band leading.
2. Salute to Flag.
3. Remarks, Miss Howe.

10:15 to 12.

I. Primary children.
   - (a) Maypole winding.
   - (b) Flag drills.
   - (c) Rhythmic games.
   - (d) Races and events fitted for primary children.

II. Fourth to Eighth Grades.
   - (a) Fourth Grade boys—play ground ball.
   - (b) Fourth grade girls—play ground ball.

III. Fifth to Eighth Grades. Decathlon Events.

12:00 to 1:00—Lunch.

1:00 to 4:00—Organized Games.

1:00 to 2:15.

Baseball	Baseball	Volleyball
Boys	Boys	Boys and girls
Moreland vs. Meridian	Cambrian vs. Hamilton	Two Campbell teams
Baseball	Baseball	Volleyball
Girls	Girls	Girls
Moreland vs. Cambrian	Hamilton vs. Meridian	Campbell 1st vs. Campbell 2nd

2:15 to 3:30.

Boys: Campbell vs. All Stars—team picked from other schools.

Girls: Campbell vs. All Stars—team picked from other schools.

3:30 to 4:00—Basketball.

Cambrian 1st vs.	Meridian vs.	Moreland 1st vs.
Campbell 3rd	Hamilton	Campbell 4th

Afternoon Program Primary Children:

I. Movies—Auditorium.
II. Story Telling—Miss Naylor.
III. Victrola—Miss Reese.

In connection with this event, Campbell will have some duties and responsibilities as hosts. The Home and School club has been asked to furnish a hot dish for the children's noon lunch, there must be riboons for prizes: and the transportation of the children from the outside districts provided for. So when you are asked to cooperate in this work, be ready to do your share.

INTERESTING PROGRAM

A wide and interesting field of reading was touched upon by the program committee at the meeting of the Country Woman's club on Monday.

Mrs. Mary Lanphear was the chairman and handled the subjects in a very able and entertaining manner. The two authorities under consideration were Margaret Deland and F. Hopkinson Smith. Mrs. Lanphear opened the topic with a paper introducing the two authors, and then Miss Marion Duncan took up the subject of F. Hopkinson Smith with a paper descriptive of his life and accomplishments. The latter were varied, he being a successful engineer, an artist of ability, a prominent lecturer and most able author. She read some illustrative sketches from "Peter" and "The Fortunes of Peter Horn," showing his skill at description of nature and delineation of character.

Mrs. Lanphear continued with the life of Mrs. Deland and depicted the locality about which her stories are woven and discusssed the style of her work. Mrs. H. C. Smith read short selections from "Dr. Lavender's People" and "Old Chester Tales," which gave a glimpse of two prominent characters, Dr. Lavender and Dr. Willy King. Reviews of "Helena Ritchie" and "The Iron Woman" were presented by Mrs. H. L. Preston in a very interesting way, one a printed criticism and the second her own interpretation.

The program concluded with the account of Mrs. Deland's return from the war zone and resumption of writing, choosing the scene of her earlier stories instead of depicting the martial background as have so many other writers.

PUNDITA ENTERTAINED

The Pundita Circle was entertained at the home of L. Carboni on Santa Clara-Los Gatos road Wednesday afternoon.

The roll call was responded to by those present relating current events pertaining to the state's industries.

A very interesting paper on the Products and Industries of California was read by Mrs. W. H. Stray.

A guessing contest based on pictures illustrating California fruits was engaged in, the prizes awarded being prune recipes.

Miss Helen Kalas, during the afternoon, rendered in her always pleasing voice, "Birds are Nesting" (Noel Johnson), "The Rose's Cup" (Ward-Stephens), "The Cuckoo Song" (Arne) and "Admonition" (Winter-Watts).

Refreshments were served by the hostess, assisted by Mrs. Stray and Mrs. C. E. Day.

The next meeting will be held on Wednesday afternoon, March 16, at the home of Mrs. C. D. Gill, on the San Tomas road Mrs. Tate assisting.

Favoring the plan to start a forest of states in Los Angeles, Governor Parker of Louisiana replied to the invitation of the L. A. Chamber of Commerce and agreed to send two magnolia trees.

CAMPBELL WINS DIST. CHAMPIONSHIP

Campbell High basketers covered themselves with glory and thereby put the town on the map in boldface type Wednesday afternoon when they defeated the Redwood quintet by the decisive score of 35 to 12. This game was to play off a tie for this district championship, each team having been defeated but once in C. I. F. contests. According to the league ruling, games must alternate so the game was played on our court. Early in the game the Sequia rooters were well satisfied as to to the outsome, but soon began to see things—but not like balls falling into their own baskets. Then began the wail of unfairness in bringing them here to play, and other remarks, ad lib.

As the final score demonstrated, there is no question as to the relative merits of the two teams and at no time did our players suffer by comparison with theirs. Our boys played a most gentlemanly game, never losing their tempers, which cannot be said of their opponents who at times displayed unwarranted displeasure.

George Benner was the stellar performer and at times his cool and unconcerned way of deceiving his opponents brought forth much applause. Albert Gross at forward played a very heady game and made several pretty goals. At center Fritz Henizen, though some shorter than his man, was on the jump and covered the field with most spectacular speed. Ray Hulsman and Vern Sawyer put up a wonderful game at guard, sometimes blocking several players and intercepting passes, as the low score of their opponents testifies.

Taking it by and large we are pretty proud of the distinction the district championship gives our school and boys.

The team will meet Salinas, champion of that district probably Wednesday evening at San Jose.

RIGHTER HONORED

Campbell is proud of the appointment of C. Erwin Righter as coach of the Stanford Freshmen baseball team for the spring season, but is not pleased to have it appear in the San Jose Mercury Herald "Cupertino man," etc.

The community has followed with pride the stellar career of "Swede" Righter in rugby, American football, and basketball, in all of which he has won laurels for Stanford, himself, and his home town. It is a just recognition of his services to his alma mater that he has received this appointment. Campbell is not so large numerically but her young people are winning distinction in the outside world in all lines of endeavor.

While we are at it we might also try something to bring our matrimonial bonds up to their face value.—Minneapolis Tribune.

Mary Jane says it is no trouble at all to overcome the shortage in paper stock. Cut out the cigarettes.

Tell Us Your Troubles

We are ready to listen, so come in and unload. If your tire is in need of care, don't throw it away, when you can have it repaired at a nominal cost. We are factory–experienced men; we know our business, and will give you a square deal.

Ex-Chancellor Hollweg of Germany Dies.

Berlin—Dr. Theobald von Bethmann-Hollweg, former German chancellor, died yesterday after a brief illness on his estate at Hohenfinow, near Berlin.

Under the most prominent activities of Dr. von Bethmann-Hollweg was his testimony before national assembly committees investigating responsibility for the war. His testimony brought out he had opposed submarine warfare and had issued warnings not to underestimate America's strength.

PRUNE WEEK—MARCH 15–25.

PRUNE WEEK, the most noteworthy occasion for this county of any in the United States, was suggested by Mrs. Jas. Turner, one of the prominent matrons of Campbell. It immediately became popular in this vicinity and is becoming more so as the good word is passed to other parts. W. T. Hobson, an energetic worker in the Growers organization, is very active in the publicity campaign, and is leaving no stone unturned to make it the biggest thing ever. The appeal is made to housewives throughout the country to serve this delectable product of our wonderful valley during the week of March 19 to 25. To many growers of this valley, prunes is the chief product, and it affords seasonable labor to thousands of packers and handlers. A pound of prunes per person for the week will consume nearly 100,000 pounds in this valley alone, and when carried to other parts of the State will prove a great boon to the industry. Do your bit.

HEALTH IS A COMMUNITY ASSET

The March number of the Woman's Home Companion has a splendid article entitled "Keeping Everybody Well," with sub-head—"The modern community demands health-protection and prevention of disease for its individual citizens, exactly as it demands clean streets and efficient fire and police forces." Quoting briefly from the article: "What is your town doing to keep you well? What are you doing to keep your town well? Health is public business, your business, your town's business. If it is neglected, somebody will pay dearly, perhaps you, perhaps those you love dearest."

For years, community health received small attention. Then it was discovered that much illness was preventable by proper care. Sewer systems, clean streets, garbage collection, pure water supply became general health measures. Ordinances were passed compelling tenants to clean out alleys and buildings. Now we enjoy even further protection.

The school officer who quarantines the children of a family with a single case of measles, whooping cough or diphtheria, is safeguarding your health. The school nurse who investigates a cough, or finds an under-nourished child, is helping to prevent the spread of disease.

In the ideal town, health ranks as a community asset. One plague spot, one unchecked, unsegregated case of tuberculosis, one unquarantined case of diphtheria, can raise the mortality and reduce the healthfulness of an entire community. With the children started right, the next generation of adults will be far more healthy.

So health is a public business, **your** business, your **town's** business; and you can have healthy people in your community if you will co-operate with state, county or local health workers and your welfare organizations.

In last week's Press we published an account of the work done by our Community Nurse and the Public Health Center, and the announcement of the committee supervising the funds for this work that the money is about exhausted. We are urging you, each one, to contribute something for the continuance of this work, which is so well established and means so much to every one who lives here.

CARNEY—MANNING

Wednesday evening, February 23rd, Mr. Carl Carney of Campbell and Miss Harriet Catherine Manning of San Jose quietly stole to Los Gatos, made a short call upon the Rev. A. C. Shepherd, D.D., pastor of the Methodist church there, and then returned with two hearts beating as one. Mr. Carney is one of Campbell's young men who has really stolen a march on some of his pals. The Press joins in wishing them a happy life.

HOWARD IS MAKING GOOD

Howard Bean, of Washington, D. C., was recently called to Fort Worth, Texas, to calibrate the city's gas meter power. He has also been asked to take charge of a new work to be conducted at Trenton, N. J. . The chemistry division of the Bureau of Standards has been asked by the War Department to investigate some commercial methods of obtaining hydrogen. The chemistry division has put Mr. Bean in charge of maesuring their gas volumes.

Howard is another Campbell boy who has made good in his chosen line, and it is a pleasure for the Press to recount the achievements of its youth.

OTIS E. BRIGGS

The death last week of Otis E. Briggs was an especially sad one. He contracted blood poisoning through the removal of a small eruption on his chin and two days later passed away.

Funeral services were held Saturday and the body laid to rest in Oak Hill.

Mr. Briggs was a graduate of the engineering department of Stanford, class of 1917, and saw service in France. On January 5th he was married to Miss Beatrice A. Thomas of Almaden road, and the bereaved bride has the deepest sympathy of her friends in her great grief.

Mr. Briggs's parents are residents of Palo Alto, and Stanford professors and students in numbers attended the funeral, as he was very popular with both.

Construction of a new theater, to be built by theatrical interests of New York and San Francisco, will begin shortly, according to authentic reports. The new theater will be built in the neighborhood of the Hotel St. Francis, and will cost between $350,000 and $400,000. Architects are now at work on the plans.

Leonard A. Walton, chairman of the Sutter County Peach Growers' committee that is negotiating for the building of canneries in Sutter county and Marysville, reports that two propositions, one made by Eastern capital to erect a cannery in Yuba City, and the other in Marysville, would probably be accepted by the growers.

Paul Garrett, 19 years old, a private of the 16th Company, C. A. C., stationed at Fort Barry, while hunting in the hills back of the fort last week, was shot accidentally by his hunting companion, Andrew Sittnan, a private of the same organization, and died in the Letterman Hospital, according to officials at Fort Barry.

A gold nugget valued at $5000 was found recently by Joseph Miller and John Stern while placer mining on Motion Creek, a mile west of the railroad station of Motion. When they brought the wonderful specimen to Redding it caused excitement akin to that stirred up by the Graves brothers' nugget of $30,000 found on Coffee Creek, in Trinity county, in 1896.

The rule of the forest service that all fees for grazing must be paid at least thirty days in advance of the grazing period will be waived this season, according to word received at the headquarters of the Tahoe forest service. Stockmen may defer paying such fees until August 1 on all seasons opening earlier than July 1. For this accommodation the service will add 1 per cent to the grazing fee.

The farmers of the state should be deeply interested in hearings that are to be held at Davis and Berkeley the end of this month. The proposition is: Shall the agricultural department of the State University be moved to Davis and the entire agricultural school be united there, or shall it be divided, as it is at present? The university authorities want the technical and the practical separated as they are now, while the farming community, so far as heard from, wants them both at the same time, and practically apply what they theoretically learn.

What is Service?

You wish to succeed. Success, indeed, is a duty that you owe yourself, your dependents, and, in no small degree, your community.

Very quickly, in your quest for success, you arrived at this deduction: that no man can go far by his own unassisted efforts. Success, you have learned, is largely a matter of aids—of a wise choice of service.

Service, then, we may define as the aid that we accept from others to round out our own careers. It is something, too, that we both give and take—a kind of universal co-operation.

A bank is just one branch of business service. You know more about your own particular work than we do; we may know more about banking than you do. Bring us your financial problems. Don't, above all, be ashamed to confess ignorance. A wise man is one who knows his limitations, and when and where to go for expert advice. We can help you.

Once more: success lies largely in the wise choice of service. Make good use of banking service, and—select a good bank.

Good Potatoes—Oregon Burbanks 3c pound. Mark Smith, Dry Creek road.

Grocery Topics in Brief

Look for the word "vitamines" in your dictionary. You'll look in vain, unless your word book is among the latest of the late.

A bit of a bargain—

Minnesota Crosby Corn at 15c a can, is one of the items in the "Low Cost of Living" era that we are just entering. Crosby Corn is tender and sweet.

Another bargain—

Alaska Pink Salmon, 1-pound can, 15c. This pink fish equals the red in food value; but is weak in flavor, being deficient in oil. Add butter or Nucoa to pink salmon when serving. This price is a Lenten special.

Now that Spring is here, eat more oranges. The association asks us to use the small sizes, because they are plentiful this season. Buy those that sell at 20 or 40 cents a dozen, for economy.

Are you roasting peanuts at home? Do it. Just think!—shelled peanuts at 15c—awfully cheap. Good food too.

Blaine's Quality Steel-Cut Coffee tops the sale of any other brand in Campbell. There's a reason. High grade. Medium price. Forty cents.

We opened a box of bulk white figs today. By the pound, 17½c.

About those "vitamines"—you know of course, that they are the vital life principle found so plentifully in compressed yeast. Hence the popular yeast habit. Get started. Don't miss anything so good.

Fancy stationery? See Smith.

Mrs. Lee Darneal of Los Gatos visited her friend, Mrs. Morris Weeks, Wednesday.

Mrs. Archibald Standish of Virginia avenue is on the sick list, but is improving.

H. P. Bean of Williams road has been spending several days this week with his daughter, Mrs. Smith, at Vallejo.

Robert Holmes went to his ranch at Patterson this week to look after pruning and cultivation of his peach orchard.

Mrs. Louis Williams will leave this evening for San Diego to join her husband who is still on duty with the engineers in the navy.

The fire bell called out the department to Dillon avenue Monday afternoon, where a chimney fire was burning No damage was reported.

Mrs. Clara Baldwin was confined to her bed with a very severe attack of lumbago the first of the week, but was able to be out Thursday evening.

Amasa Merriman has moved from San Jose to make his home with his nephew, Guy Merriman and family. He has passed his four score years and now wishes to be near some of his people.

Mr. and Mrs. E. Hancock and Fraser left Tuesday by auto for Pacific Grove, where they will make their home for a time having stored most of their things here. They are making the change for the benefit of Mr. Hancock's health.

The March meeting of the High School P. T. A| will be held Tuesday, March 8th All mothers of High School pupils and others interested are cordially invited. There will probably be an otsuide speaker to address the meeting.

Campbell friends will be sorry to hear that Mrs. Harry Watrous is ill with a severe case of rheumatism. Mr. Watrous was here Wednesday and said th atshe would have to go to the hospital unless greatly improved within a day or two.

A very pretty display of needlework of the Eighth Grade sewing class is being shown at the Blaine's store. These girls are under the supervision of Miss Hancy Naylor and all of them are deserving of much credit for their pretty work.

Mr. and Mrs. J. Blackburn, who were married last August and have since resided in Campbell, occupying one of the Dewey Apartments, left today for Long Beach. They will meet friends at Santa Barbara and make the rest of the trip by auto.

Norman Kelley arrived home Wednesday evening, having received his honorable discharge. He is looking very fine and fit and says home "sure looks good" to him. He has served a bit over two of his four years as Uncle Sam is discharging many of his seamen.

Mrs. H. W. Higbie left Tuesday for the ranch at Quincy. She was accompanied by Mrs. Rubell, who will remain for a month. It is with much regret that Campbell bids adieu to Mr. and Mrs. Higbie, but as they also have a home in San Jose, we shall hope to see them often.

The Service Garage is installing a large modern lathe whereby they will be able to do all kinds of that specialty work. Many of their other tools and appliances are of the most up-to-the-minute styles and will enable these hustling mechanics to get out their work in the shortest possible time.

Mr. A. C. Blood of St. Louis arrived last week on his second annual visit with his daughters, Mrs. Winfield Turner and Mrs. Rapp. Mr. Blood has already been the rounds of town renewing acquaintances with his fund of jokes. He hopes to remain several weeks, but will return as soon as his business calls.

Cambrian girl's basebal team defeated Los Gatos Wednesday afternoon by a score of 24 to 13. The Cambrian players were: Marie Fumatri, Edrika Readhead, Emerson Harris, Marie McConnell, Olive Hanger, Mary Rodgers, Laura Harris and Dolores Tiormino. The boys of these schools will cross bats this afternoon.

E. C. Merril went to San Francisco Wednesday and purchased a 3½ ton automatic dump Mack gravel truck. He will put it on the state highway job working from Los Gatos towards Alma. Work on this section of the road will begin the first of the week. During the busy fruit season Mr. Merrill will put on a flat bed to haul fruit.

SCHOOL CLUB

In the absence of Mrs. Baldwin on account of illness, the vice president, Mrs. E. C. Merrill filled the chair Tuesday at the meeting of the Home and School Club.

The entertainment numbers were furnished by the school, the first being two numbers by the Glee Club, which is composed of Stephen Merrill, Robert Holmes, Ellis De Selle, Dorothy De Selle, Clara Soares, Mary Pond, Margaret Miller and Antone Bonoccorso, followed by a boys' trio. This organization is a new institution at the school and did most creditable work.

A minuet, in costume, was very nicely danced by Mrs. Davis's pupils, the couples being Spencer Holmes and Myra Lester, Harold Gardner and Virginia Lenor, Walter Prout and Josephine Stallman, Stanley De Selle and Carlyn Lund.

Mr. Rodriguez made an announcement of Athletic Meet to be held here in May and also brought up the matter of a victrola for the school, which is especially necessary for the outdoor rhythmic games, and the club voted to pay half of the cost of the one tried by the school if the trustees would do the same.

On the count of mothers and guests, Mrs. Davis' room was awarded the vase for March.

The recently purchased electric plate, aluminum tea kettle and teapot were put into service for the first time for the social hour and proved very desirable acquisitions. They are intended also for the use of the teachers for noon lunches.

FATHERS' NIGHT

A representative gathering of parents, teachers and others interested in the welfare of our schools met in the I. O O. F. Hall last evening in response to the invitation of the Home and School Club to participate in "Fathers' Night."

The program opened with a salute to the flag led by Mr. Rodriguez, and then the grammar school glee club sang three numbers and the boys' trio one song. Rev. F. C. Farr offered prayer Miss Helen Kalas sang two charming solos, with Mr. Halamicek at the piano.

Miss Agnes Howe in a most interesting and instructive manner explained conditions and provisions for our consolidated schools as she sees them, and in the light of what other schools have done, with their successes and mistakes. She also called attention to a few of the bills before the legislature that vitally affect the schools and educational problems. She was followed by Principal R. J. Rodriguez who concisely and with figures explained the situation existing at present and for the coming year as to school census, assessed valuation, what school facillities will be needed, taxation in the Cupertino Union district on $75,000 bonds, and the rate of tax that a similar amount would make for the Campbell consolidated district.

George Schuyler, president of the Campbell-San Tomas trustees, T. A. Robinson and C. E. DeSelle of the board all spoke briefly of the needs for the coming year and the reasons that no active steps have as yet been taken.

A social hour followed, during which a general acquaintance was made and cake and coffee were served by the hospitality committee, assisted by the teachers and others. The club felt that the evening had been a very profitable one and appreciated the presence of all who were in attendance.

'DAD' ATKINSON BUSY IN NEW FIELD

Under date of February 28, "Dad" Atkinson writes from Ceres of some of his numerous activities. At a "Father and Son banquet" at Hilman, at which he spoke, he found Oscar Seagren acting as toastmaster. At a Stanislaus county S. S. convention he met Miss Mildred Beaver, who is teaching at the high school at Patterson. At this meeting Mr. Atkinson was elected head of the administration department of the Stanislaus County S. S. Union. Friday of this week he speaks at Turlock and hopes to see the W. W. Stewart family.

Mrs. Atkinson is at present in the south where she went by auto with friends to visit her sister.

Campbell is glad to keep in touch with former residents by letter if not by visit.

The Freshman Hi and Campbell-San Tomas Grammar baseball teams enjoyed a friendly contest Tuesday afternoon, resulting in a score of 12 to 10 in favor of the Freshmen.

CALIFORNIA NEWS ITEMS IN BRIEF

Paragraphs of Interest to Readers of Golden State

Ground has been broken for a $100,000 nursery in Clarksburg district, along the river from Woodland.

Heavy warm rains recently, which melted the snow on the higher altitudes, caused widespread damage in Humboldt county.

Prune week will be observed in California during the week beginning March 14, if the plans of the Orchard City Grange are carried out.

Frank R. Devlin has been elected president of the State Railroad Commission. He succeeds Edwin O. Edgerton, whose term expired January 1.

San Jose is to have a third 100 Per Cent Club industrial exposition, this being decided by the members of the organization at a meeting held last week.

All Santa Clara county officials holding appointive posts will be retained during the year 1921, this being decided by the supervisors at a recent meeting.

Establishing a local club, the twenty-sixth branch in their world-wide expansion, the Old Colony Club of New York has just opened headquarters in Los Angeles.

The River Auto Stage Association has been granted a franchise to operate a stage line between Sacramento and Isleton by the California State Railroad Commission.

More than 21,000 carloads of California vegetables were shipped in 1920 from this state, according to H. M. Butterfield of the College of Agriculture of the State University.

Members of the Sacramento County Board of Supervisors have been asked to appoint a truant officer to investigate cases of children in the country who should be attending school.

Chico is to have a permanent baby clinic through which mothers and prospective mothers may obtain all necessary information on the care of infants, their health and general welfare.

With only one member of the board absent, the Fresno city trustees at a recent meeting passed the new Volstead enforcement ordinance as drafted by the city attorney. The law bans the sale of so-called "bitters."

When the thousands of club women meet at the annual convention in Yosemite Park, there will be a pictorial history of California presented in six tableaux in which women from every part of the state will have part.

I. N. Nobel of Woodland, who graduated last December from the University Farm at Davis, will leave in a few days for the Holy Land under contract to inform the inhabitants of the latest approved method of farming.

The trial of Leo Ferris, rancher at Salinas, on a charge of murdering William Boyd Abernethy, a neighbor, ended in a disagreement, the jury standing ten to two for acquittal. March 21 was set as the date for the next trial.

Men and women from fifty-eight counties in this state, all dealers in human welfare in one form or another, conducted a five-day session of the thirteenth annual California Conference of Social Work at San Francisco last week.

At a meeting of hand sheep shearers in the Stockton section the price of shearing was fixed at 12½ cents per head this season. The agreement was signed by twenty-eight shearers. Machine operators charge 15 cents per head for their shearing.

A sign-posting truck from the Automobile Club of Southern California has arrived in Visalia and will remain indefinitely in Tulare county adjusting damaged signs and posting others on roads opened last year. Special attention will be given the Giant Forest road.

A mass meeting was held at Cotati, at which time it was planned to bond the district for $22,000 to replace the school house recently destroyed by fire. Insurance to the amount of $10,000 is to be collected, so $32,000 will be expended in building a modern school house.

The West Lewark, the first of five ships of its type to be built by the Los Angeles Shipbuilding Company for the Emergency Fleet Corporation, was launched recently at Los Angeles harbor. The vessel, a freighter of 11,600 tons, measures 444 feet over all and 54 feet beam.

The board of directors of the Veterans' Home of California unanimously voted for the election of Russell C. Martin as commandant of this home, vice Colonel Nelson M. Holderman, resigned. The new commandant is to serve for the unexpired term ending June 30, 1921.

A company of Southern California men has uncovered a large deposit of marine shells at the base of the San Pedro hills which, it is said, analyzes 96 per cent pure lime. A plant has been established on the site of the shells and fossils are being shipped as fertilizer and for a part of poultry rations.

U. S. DESTROYER WOOLSEY SUNK

War Vessel in Collision off Coast of Panama

San Diego—The United States destroyer Woolsey of the Pacific fleet was sunk with the known loss of one life early Sunday morning off Coiba island, following collision with the steamer Steel Inventor, an American merchant vessel.

One dead, four injured and fifteen missing, all enlisted men of the Woolsey's engineering force was the toll reported by wireless from the flagship New Mexico.

Coiba island is 150 miles north of Panama. It is believed here that the Woolsey, known officially as destroyer No. 77, was returning to this base from the maneuvers in which both the Atlantic and Pacific fleets recently participated.

The Woolsey carried a crew of 120 men. She was commanded by Commander H. C. Gearing Jr. Lieutenant P. F. Shortridge was executive officer, and the others of her commissioned personnel are Lieutenant D. R. Knape. Ensigns M. A. Barber, W. H. Buracker. W. R. Cushman, E. P. Forrestal and R. Keith and Gunner F. Purrucker.

The casualties at early reports are: Dead—Tom Stanley Woodcock, engineer, first class. Injured—D. M. McCaigo. A. O. Burnside. Missing—D T. Blakeley, Floyd Coltengin, Roman Fiekls, John Joseph Galcher, George Joseph Zibello, Elbert Jesse Harson, Henry George Hancock, Emerson Floyd Long, Leo Norwardsky, Harold Read, Mattie Owen Stewart, Webb Stubblefield, George Elmer Wochiman, Charles N. Yost, Emerson Dale Waight.

BANK CLERK IS BOND THIEF

Accused Employe Known as Good Son and Model Worker.

Chicago—William Dalton, 17-year-old bank clerk employed by the Northern Trust Company, last Saturday casually wrapped $772,000 worth of Liberty bonds in a brown paper parcel and walked out of the buidling.

The theft was discovered two hours later.

Dalton's salary was $80 a month. A reward of $1000 was offered for his arrest and $25,000 for the recovery of the stolen bonds.

The boy was arrested by the town marshal at Heyworth, Ill., yesterday.

All but an inconsiderable portion of the $772,000 in Liberty bonds with which the young clerk strolled from the Northern Trust Company building Thursday noon was recovered.

The boy made a complete confession and stated that he had acted on a sudden impulse for which he could not account.

Previous to the theft the boy, according to his mother, had been a steady church-goer, spent his evenings at the Y. M. C. A. college and had no bad habits. That the crime was an impulse of the moment is indicated by the circumstantial evidence at the time of the disappearance of the securities.

INVESTIGATE MAN'S DEATH

Old Man Believed to Have Been Murdered for His Money.

Quincy—That Frank Marvin, 77 years of age, caretaker of the Red River Lumber Company at Camp 14, was murdered previous to the burning of his cabin, on March 19, 1920, is the conclusion reached at the offices of the district attorney and sheriff of Plumas county.

It is stated that the inquiry has been under way for nearly one year, that many persons have been quizzed and several arrested, but that the officials are still in doubt as to who committed the crime. The alleged motive was the theft of currency, Liberty bonds and War Saving Stamps known to have been kept in the cabin by the old man.

ORIENTAL BIRTH STATISTICS

High Record in Japanese Births.

Sacramento—A new high record in the number of Japanese birth registrations was reached in California in 1920, according to tabulations announced here by L. E. Ross, director of the bureau of vital statistics of the state board of health. Japanese children born in this state and registered to date for the twelve-month period, Ross reported, numbered 4928, or between 7 and 8 per cent of the total registered birth record of 66,655. State records show 4218 Japanese children were born in California in 1918 and 4458 in 1919.

BIG SEARCHLIGHT ON TAMALPAIS

Richmond—Mt. Tamalpais will soon boast of the largest searchlight in the world. It will be 40,000,000 candlepower and throw light over a radius of forty miles. Objects at sea and the entire San Francisco bay district will be plainly discernible through the medium of the light and it will serve many purposes. Announcement of this new attraction was made at a recent meeting of the Marin County Chamber of Commerce luncheon. The cost of the light will be $16,000, and money for its installation has already been subscribed.

The price of shoes is to take a big drop next month. That ought to gladden many an afflicted sole.—Chicago

A REMARKABLE PROPHECY.

The following, which is known as "Mother Shipton's Prophecy," was first published in 1488, and re-published in 1641. It will be noticed that all of the events predicted in it, except in the two last two lines—which is still in the future—have already come to pass:

Carriages without horses shall go,
And accidents fill the world with woe.
Around the world thoughts shall fly
In the twinkling of an eye,
Water shall yet more wonders do;
Now strange, yet shall be true.
The world upside down shall be,
And gold be found at root of tree.
Through hills man shall ride,
And no horse nor ass be at his side.
Under the water men shall walk,
Shall ride, shall sleep, shall talk.
In the air men shall be seen,
In white, in black, in green.
Iron in the water shall float,
As easy as a wooden boat.
Gold shall be found, and found
In a land that's not now known.
Fire and water shall wonders do.
England shall at last admit a Jew.
The world to an end shall come
In nineteen hundred and ninety-one.

The Yanks are about to wind up the watch on the Rhine.—Washington Post.

Don't court trouble. Court your wife instead.—Springdale (Wash.) Reformer.

Chicago municipal authorities are investigating restaurant soup to ascertain if there is anything besides profit in it. —Sioux City Journal.

Love comes like a cobweb floating in the breeze—and leaves like a piano mover falling down stairs.—Wellington (Kan.) News.

The Sabbath was intended for a day of rest, but misguided reformers would make it a day of arrest.—Middletown (Del.) New Era.

THE PUBLISHER'S RESPONSIBILITY.

Much demoralizing reading is printed on the plea that "the public wants it." A mother might as excusably give her child the glistening arsenic for which it cries The publisher bears a responsibility to society like that of the preacher or the teacher. This at any rate, is the view of the publishers of the Youth's Companion. From its first issue to the present, it has been a constant force for character building. And with all that, it has been so wisely edited that no publication exists of more varied charm, more inexhaustible and refreshing sources of interest.

The 52 issues of the coming year will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Only $2.50 for an amount of reading equal to thirty-five volumes of fiction, humor, etc.

THE YOUTH'S COMPANION,
